

We are Recruiting!

Children aged between 7 and 12 years old are invited to participate in the evaluation of a new augmented reality game (active computer games) for motor skill development at the University of South Australia in collaboration with St Peter's Girls' School.

Children can participate in this study if they:

- Are between 7 and 12 years old
- Do not have a physical or neurological condition
- Can participate in a motor skill intervention

All testing and assessments will be performed by a qualified therapist at school

All families will receive a summary of their daughter's motor skill performance and results
